AEC ENVIRONMENTALLY DRIVEN RISK REDUCTION

Customer – NASA, Goddard Space Flight Center

NAICS (Size Std.) – 541330 Engineering Services (\$15M)

Value – \$30M

RFP Date – September 2019

Award Date – January 2020

Primary Requirement – Architecture & Engineering Services

Competition Type – Other

Duration – 5 year base

Place of Performance – Greenbelt, MD

Incumbent(s) – International Trade Bridge, Inc.

GovWin ID – 145582

AEC ENVIRONMENTALLY DRIVEN RISK REDUCTION

Requirements:

- Shall provide specialized technical and management expertise to NASA Centers, field installations, and NASA Headquarters in relationship to all areas of this contract and to meet the requirements of existing Federal Government and NASA policy
- Is expected to use its expertise to provide specialized support in facilitating breakthrough analysis, new technology and continuous improvement of processes within the NASA facility
- Is expected to apply cutting edge industry best practices to each specific area that will improve current technical and management practices for this contract

AEC ENVIRONMENTALLY DRIVEN RISK REDUCTION

Contract functions include:

- TEERM Support, Remediation Technology Collaboration Development, Energy and Water Management, Energy and water data review, analysis and reporting, Provide Program Management support, Environmental and Energy Functional Review (EEFR) Support, Programmatic Environmental Assurance Support, Green Engineering Advancement
- FUNCTION 1 TEERM Support The purpose of Core support is to provide engineering, technical and administrative support to the NASA Technology Evaluation for Environmental Risk Mitigation Principal Center (TEERM)

AEC ENVIRONMENTALLY DRIVEN RISK REDUCTION

Contract functions include:

- **FUNCTION 2 Remediation Technology Collaboration Development**
The contractor shall establish and maintain the capability to specifically target reductions in the long-term liability associated with NASAs most challenging remediation sites
- **FUNCTION 3 Energy and Water Management**
The contractor shall provide support in the field of Agency energy/water program management

AEC ENVIRONMENTALLY DRIVEN RISK REDUCTION

Contract functions include:

- **FUNCTION 4 Energy and water data review analysis and reporting**
The Contractor shall support calls to Centers for input via NASA Environmental Tracking System (NETS) or other means and drive Centers to timely completion on data collection including but not limited to:
 - Annual DOE/CEQ Energy/GHG Data Inventory Workbook Annual NASA budget exhibit (NETS)
 - Semiannual data input to DOE Compliance Tracking System (CTS) Semiannual data input into
 - Portfolio Manager Quarterly consumption and cost (NETS) Quarterly and annual square footage, accomplishments, and plans (NETS) Occasional one time data collection

AEC ENVIRONMENTALLY DRIVEN RISK REDUCTION

Contract functions include:

- **FUNCTION 5 Environmental and Energy Functional Review (EEFR) Support** The contractor shall provide EEFR On-site support to document the results of the review and draft the report
- **FUNCTION 6 Programmatic Environmental Assurance Support** The contractor shall perform the environmental engineering, planning, and technical support required to analyze and review the regulatory interfaces, and impacts to the Agency Programs as identified by the Regulatory Risk
